Attract, screen, interview, and retain technology professionals...easier and faster than you thought possible. ReviewNet Corporation is a leading provider of IT skills measurement and recruiting solutions. We'll assist you by using the power of the Internet to save your recruiting department valuable time and money, and more importantly, improve the quality and effectiveness of your hiring decisions.

### *Comprehensive and Customizable*

We provide services that help you at all stages of hiring IT professionals—whether it's attracting passive candidates, qualifying applicants, interviewing finalists, or measuring the skills and training needs of your current employees.

### *Employer Focused*

ReviewNet products and services are squarely aimed at the needs of the customers employing IT professionals. Our goal is to help our customers improve the effectiveness of their IT recruiting. We help you hire more people who best meet your needs, with less recruiting time and effort. We save interviewer's time, reduce manager's headaches, and make recruiters heroes.

### *State-of-the-Art*

ReviewNet is 100% Internet-based and driven by our continually updated databases of IT knowledge. Our network of authors and reviewers ensures that you'll stay ahead of the technology curve.

## *About ReviewNet*

ReviewNet was founded in 1997 with the mission of helping companies make better staffing decisions involving IT personnel. ReviewNet now provides solutions that help companies attract, recruit, screen, interview, test, train, and retain personnel in a wide variety of technologies.

ReviewNet's products and services are delivered via the Internet, providing customers with a simple, comprehensive and universally available recruiting and assessment system. We believe our customers benefit from making their investments in people rather than hardware.

ReviewNet's applications are powered by a KnowledgeBase of IT questions maintained and enhanced by a network of leading technology specialists who are motivated to provide the most up-to-date and relevant questions possible. We are committed to continually advancing the quality of the recruiting and hiring process through innovative systems providing relevant information.
